Top 3 benefits of Reading

1. **A stronger relationship with you.** As your children grow older, they’ll be involved in many activities with friends and siblings. Snuggling up with a book lets parents and children slow down and recapture that time you enjoyed when they were younger. Instead of being seen as a chore or a task, reading will become a nurturing activity that will bring the two of you closer together.
2. **Academic excellence.** One of the primary benefits of reading to young children is a higher aptitude for learning in general. Numerous studies have shown that students who are exposed to reading early on are more likely to do well in all facets of formal education.
3. **Better communication skills.** When you spend time reading with children, they’ll be much more likely to express themselves and relate to others in a healthy, constructive way.
